Navigating the Astrology Course Market

Essential Tips for New Students

The internet is full of **astrology course scams online**. If you are asking **are expensive astro courses worth it**, you must do your research. A common trap is the **lunar astro deceptive course**, which promises mastery but delivers basic concepts. Always search for **lunar astro course reviews and complaints** to uncover the truth. Watch out for **hidden costs in online astrology courses** like paid remedy consultations. Remember, a **fake astrology certification** cannot replace the profound wisdom of traditional Vedic study.
